# CarCoon Bike Bubble - the ultimate storage and protection

Model	Size (W x L m)	Colours
CarCoon Bike Bubble	0,75 x 2,60 m	Transparent, Red and Blue
CarCoon Bike Bubble	0,75 x 3,00 m	Silver
CarCoon Bike Bubble long	0,90 x 3,20 m	Transparent

## Description

<b>Usage</b>	The CarCoon Bike Bubble is extremely simple to use. All you have to do is cover the garage floor with the included base mat. Then you park your motorbike on the mat, place the top cover over the vehicle and fasten it to the base using the special zip fastener. Plug in the power supply for the blowers and five minutes later, your motorbike is stored in its own optimally protected environment.
<b>Construction</b>	The CarCoon Bike Bubble is the ultimate vehicle storage system ever invented and will protect your investment perfectly. The CarCoon Bike Bubble has a unique and patented 'active airflow' system (worldwide patent) that consists of two air-treatment blower units, which operate continuously to provide super-atmospheric circulating airflow at all times. This will protect your motorbike from condensation by protecting from dew point saturation. Importantly, the circulating air comes from inside the storage unit itself, and effectively isolates the flow of air from the humid outside environment. The blowers are economic as they have an extremely low consumption of electricity.
