» TOO1

» Huomioi (työvaihe)

Vaihe 7: Kiinnitysruuvit **4000** ovat pitämässä kannatinkaaria paikoillaan kunnes rännit on asennettu . Mikäli kolmas henkilö voi pitää osia paikoillaan **vaihe 8** , niin silloin nämäkin asennuskiinnikkeet voidaan kiinnittää muitten kiinnikkeiden kanssa **vaihe 30** .

Asennuksen aikana jotkut ruuvit kiinnitetään kokonaan jokoavaimella, kun taas toiset kiinnitetään vasta, kun koko autokatos on koottu ja saatettu vaakatasoon (**vaihe 21**).

Kiristä kaikki ruuvit täyttäessään kokoonpano.

Huomioi merkit kussakin vaiheessa:

EN This carport should be assembled on a solid base (such as concrete). Without solid base, pre-foundation, that will include concrete and metal, is needed as in this drawing

DE Dieser Carport sollte auf einem festen Untergrund (wie zum Beispiel einer Betonfläche) aufgebaut werden. Ohne festen Untergrund benötigen Sie ein Vorfundament, dass aus Beton und Metall besteht, wie in folgender Abbildung gezeigt.

FR Le montage de cet abri de voiture doit être réalisé sur une base solide, par exemple du béton. A défaut de base solide, le montage nécessite le coulage de fondations préalables à base de béton et de métal, comme indiqué sur le schéma.

ES Esta marquesina debe ser montado sobre una base sólida (por ejemplo, hormigón). Sin base sólida, pre-fundación, que incluyen el concreto y el metal, se necesita como en este dibujo.

NL De carport moet worden geplaatst op een stabiele ondergrond, zoals beton. Bij een zachte ondergrond zal eerst een fundering bestaande uit beton en metaal moeten worden gemaakt, zoals u kunt zien in deze tekening.

FI Tämä autokatot tulisi asentaa vakaalle pohjalle (kuten asfaltti tai betoni). Mikäli pohja ei ole vakaa, tulisi ensin valaa anturat betonista ja raudasta, kuten kohdassa 34 oppaan lopussa näytetään.

DA Denne carport skal opføres på et solidt fundament (f.eks. beton). Hvis der ikke er et sådant solidt fundament, er det nødvendigt med et forhåndsfundament, som indbefatter cement og metal, jf. denne tegning.
