Manual
for
Raised Bed for
Greenhouse 1x2m

ACCESSORIES

Galvanized raised bed and bed's extension

Sizes of the bed:

Width – 1.0 m

Height – 0.17 m

Length – 2.00 m

Sizes of the bed's extension:

Height – 0.17 m

Length – 2.00 m

Strong, well-made and durable raised beds are perfect for installation inside the greenhouses of any sizes and in the open grounds.

During the irrigation land inside the beds not will be diluted throughout the garden, and you do not need to form the beds with the land again.

Main advantages of the galvanized raised beds:

1. Metal beds do not rot (comparing to the wooden ones), there is no need to remove them for winter time. Galvanized metal goods can not be destroyed by moisture, heat or cold.
2. Reliable construction protects land from the dilution.
3. Galvanized beds have low weight. The packed beds are easy to transport in a car. Supports are placed in the ground at 25 cm. Required length can be gained by adding 2 m long extensions to the base set.
