Safety Advice

Attention

In some countries approval is needed to set up a marquee/tent larger than 75 m². It is your responsibility to comply with local rules and regulations and to ensure that the marquee/tent is assembled correctly.

In case of bad weather conditions, it is your responsibility to ensure the marquee/tent is safely secured and that the marquee/tent does not cause damage to others.

Do not use open fire, welding equipment or other sources which can ignite, inside or close to the tent.

The marquee/tent must be safely secured. We recommend you secure your marquee/tent with straps and pegs as soon as it is assembled.

Make sure to check if the marquee/tent is covered by your home contents insurance.

Marquees/tents must be evacuated under extreme weather conditions.

In the event of snow, always remove snow from the roof of the marquee/tent regularly to prevent snow from building on the roof, as heavy snow can cause the marquee/tent to collapse.

In the event of rain, there is a risk of rain puddles building up on top of the roof of the marquee/tent. Heavy rain puddles can cause the roof to collapse. It is your responsibility to ensure rain puddles do not build up. As a precaution, make sure the roof of the marquee/tent is stretched out properly and adequately over the side frames of the marquee/tent and remove rain water regularly.

Do not unpack or repack your marquee/tent in freezing temperatures. In case of temperatures below zero, always unpack and repack your marquee/tent indoors to avoid the risk of cracking parts.

The marquee/tent must be totally dry before you repack and store it to avoid mildew.

Note: Marquees are intended for events and other arrangements and are as such only meant for short term temporary assembly and the following disassembly. Dancover warranty applies only to the normal use of the Product, normal wear and tear excepted, in accordance with written use instructions or manual. The warranty does not apply to damage caused by accident, abuse, misuse, or modification of the Product.

Wichtige Hinweise!

Entspricht das gelieferte Produkt Ihrer Bestellung? Ist die Verpackung unversehrt?

Vor dem Aufbau ist der Bausatz auf Vollständigkeit und Richtigkeit der einzelnen Bauteile anhand der Stückliste zu kontrollieren. Schäden oder fehlende Teile müssen vor Aufbau umgehend gemeldet werden. Der Hersteller kann nicht für Schäden, die beim Aufbau entstehen, haftbar gemacht werden wie z.B. Schrammen, Dellen.

Important Notes!

Does this product meet your expectations? Is the packaging undamaged?

Before assembly of the product please check if the kit is complete and accurate on basis of the spare part list. Defects or missing parts have to be notified before assembling the product. The manufacturer cannot be held responsible for damages caused during assembly of the product, for example scratches or dents.

Belangrijke instructies!

Voldoet het geleverde product aan uw bestelling? Is de verpakking onbeschadigd?

Alvorens het product te monteren s.v.p. aan de hand van de checklist controleren of de set compleet is.

Defecten of ontbrekende delen moeten worden gemeld alvorens met de montage te beginnen.

De fabrikant kan niet aansprakelijk worden gesteld voor schade die ontstaat tijdens het monteren zoals bijv. krassen en deuken.
