DANCOVER[®]

Safety precautions

When accommodated in a tent there are a number of safety rules that must be obeyed at all times.

1. Cooking inside a tent is not advisable because even a fire-resistant tent can burn. There is also the risk of deadly carbon monoxide poisoning.
2. Do not change gas canisters or refuel petrol or methanol-burning stoves inside a tent. Keep flammable liquids and gas cylinders outside the tent and away from children.
3. Do not place hot appliances near the cover – that is walls, roof or curtains.
4. Do not use naked flames such as candles and lighters inside a tent – if possible use a torch instead.
5. Do not use oil-burning appliances in or around a tent.
6. Make sure all fires, stoves, gas lamps and barbecues are out before you go to bed.
7. Do not smoke inside a tent.
8. Keep exit(s) clear at all times.
9. Make sure ventilation openings are open all the time to avoid suffocation.
